

MCSE: Desktop Infrastructure Certification

Embrace the consumerization of IT.

The Microsoft Certified Solutions Expert (MCSE): Desktop Infrastructure certification proves that you can build desktop Infrastructure solutions that take advantage of the cost savings associated with deploying and managing traditional and virtualized desktops. It also validates your ability to enable the provisioning, securing, and maintaining of new consumer devices over private or public networks and via local or virtual applications—empowering IT to deliver the best end user experience.

The MTA IT Infrastructure Track certifications validate essential IT concepts and help you prepare for MCSA certification.

PATH TO MCSE

Microsoft Technology Associate

Pass these four exams for optimal MCSA preparation:

349 **Windows OS Fundamentals**
Prepare with Instructor-Led Training Course 40349
Pass Exam 98-349

365 **Windows Server Administration Fundamentals**
Prepare with Instructor-Led Training Course 40365
Pass Exam 98-365

366 **Networking Fundamentals**
Prepare with Instructor-Led Training Course 40366
Pass Exam 98-366

367 **Security Fundamentals**
Prepare with Instructor-Led Training Course 40367
Pass Exam 98-367

Become MTA certified when you pass any of the exams in the MTA IT Infrastructure Track.

MTA exams are recommended for new entrants but not required to pursue MCSA certification.

Earn your MCSA.

Begin the journey to MCSE by first earning a Microsoft Certified Solutions Associate (MCSA): Windows Server 2012 certification by passing the three exams listed below.

Windows Server 2012

Pass these three exams:

410 **Installing and Configuring Windows Server 2012**
Prepare with Instructor-Led Training Course 20410
Pass Exam 70-410

411 **Administering Windows Server 2012**
Prepare with Instructor-Led Training Course 20411
Pass Exam 70-411

412 **Configuring Advanced Windows Server 2012 Services**
Prepare with Instructor-Led Training Course 20412
Pass Exam 70-412

Earn your MCSE.

After achieving the MCSA: Windows Server 2012 certification, you're ready to pursue your Microsoft Certified Solutions Expert (MCSE): Desktop Infrastructure certification by passing the two exams shown below.

Desktop Infrastructure

Earn the MCSA and pass these two exams:

415 **Implementing a Desktop Infrastructure**
Prepare with Instructor-Led Training Course 20415
Pass Exam 70-415

416 **Implementing Desktop Application Environments**
Prepare with Instructor-Led Training Course 20416
Pass Exam 70-416

Upgrade paths to MCSE:

If you hold any of the following certifications:
MCSA: Windows Server 2008
MCITP: Virtualization Administrator
MCITP: Enterprise Administrator
MCITP: Server Administrator
MCITP: Enterprise Messaging Administrator
MCITP: Lync Server Administrator
MCITP: SharePoint Administrator
MCITP: Enterprise Desktop Administrator
you can upgrade to the MCSE: Desktop Infrastructure certification by passing three exams. Learn more at:
