

MCSE: Server Infrastructure Certification

Manage a modern infrastructure solution across technologies

The **Microsoft Certified Solutions Expert (MCSE): Server Infrastructure** certification validates your ability to build Server infrastructure solutions that provide a comprehensive platform on which to build and run your infrastructure. With supporting technologies ranging from Identity Management, Systems Management, Virtualization, Storage, and Networking, you can be sure that you have all the tools you need to run a highly efficient and modern data center.

The **MTA IT Infrastructure Track** certifications validate essential IT concepts and help you prepare for MCSA certification.

PATH TO MCSE ↓

Microsoft
Technology
Associate

Pass these four exams for optimal MCSA preparation:

349 **Windows OS Fundamentals**
Prepare with Instructor-Led Training
Course 40349
Pass Exam 98-349

365 **Windows Server Administration Fundamentals**
Prepare with Instructor-Led Training
Course 40365
Pass Exam 98-365

366 **Networking Fundamentals**
Prepare with Instructor-Led Training
Course 40366
Pass Exam 98-366

367 **Security Fundamentals**
Prepare with Instructor-Led Training
Course 40367
Pass Exam 98-367

Become MTA certified when you pass any of the exams in the MTA IT Infrastructure Track.

MTA exams are recommended for new entrants but not required to pursue MCSA certification.

Earn your MCSA.

Begin the journey to MCSE by first earning a **Microsoft Certified Solutions Associate (MCSA): Windows Server 2012** certification by passing the three exams listed below.

Windows
Server 2012

Pass these three exams:

410 **Installing and Configuring Windows Server 2012**
Prepare with Instructor-Led Training
Course 20410
Pass Exam 70-410

411 **Administering Windows Server 2012**
Prepare with Instructor-Led Training
Course 20411
Pass Exam 70-411

412 **Configuring Advanced Windows Server 2012 Services**
Prepare with Instructor-Led Training
Course 20412
Pass Exam 70-412

Earn your MCSE.

After achieving MCSA: Windows Server 2012 certification, you're ready to pursue your **Microsoft Certified Solutions Expert (MCSE): Server Infrastructure** certification by passing the two exams shown below.

Server
Infrastructure

Earn the MCSA and pass these two exams:

413 **Designing and Implementing a Server Infrastructure**
Prepare with Instructor-Led Training
Course 20413
Pass Exam 70-413

414 **Implementing an Advanced Server Infrastructure**
Prepare with Instructor-Led Training
Course 20414
Pass Exam 70-414

Upgrade paths to MCSE:

If you hold any of the following certifications:

MCSA: Windows Server 2008

MCITP: Virtualization Administrator

MCITP: Enterprise Administrator

MCITP: Server Administrator

MCITP: Enterprise Messaging Administrator

MCITP: Lync Server Administrator

MCITP: SharePoint Administrator

MCITP: Enterprise Desktop Administrator

you can upgrade to the MCSE: Server Infrastructure certification by passing three exams. Learn more at:

www.microsoft.com/learning/serverinfrastructure

Go further.

Reach the pinnacle of IT excellence by earning a **Microsoft Certified Solutions Master (MCSM): Directory Services**.

Directory
Services

Earning a Master-level certification:

Candidates for MCSM certification must meet stringent experience and knowledge requirements, and pass the corresponding computer-based Knowledge Exams plus a Qualification Lab Exam. Learn more at:
