

Regular performance testing of your Windows Desktop images ensures that your users get the maximum productivity from their Windows Desktop installation base. Don't let clients and users become unmanaged and dissatisfied over time.

### Ihr Nutzen

This workshop provides you with a review of Windows internals, a deep dive on windows performance analyzer and troubleshooting techniques to identify performance issues of drivers and applications.

### Preis pro Teilnehmer

EUR 2185,- exklusive der gesetzlichen MwSt.

### Seminardauer

2 Tag(e)/Day(s)

### Seminarinhalte

The students will revise how Windows works internally and what can affect the standard behavior. Based on that information, students will have several hands-on labs where they will experience and fix the most common Windows performance issues using the Windows Performance Toolkit (more specifically the Windows Performance Analyzer).

#### Day 1:

- \* Review of the Windows Client internals
- \* Windows Performance Analyzer usage and data collection
- \* Boot performance troubleshooting

Regular performance testing of your Windows Desktop images ensures that your users get the maximum productivity from their Windows Desktop installation base. Don't let clients and users become unmanaged and dissatisfied over time.

#### Day 2:

- \* Troubleshooting
- the most common Windows Client performance issues
- Advanced scenarios

### Voraussetzungen

Basic Windows Client Administration Knowledge

### Hinweise

Dies ist ein Workshop mit Field Engineers des Herstellers. Sie erhalten hochgradiges Know How direkt von Consultants die europaweit Projekte und Troubleshooting bei Großkunden umsetzen und begleiten. Sie können diese Workshops exklusiv bei EGOS! im Westen Österreichs besuchen.
